ng, depending on the make major change

## Anthropic contribution to

scaling up a network of institutions at the district and levels, to contribute to improvement in the school education system.

It has also set up the Azim Premji University in Bengaluru. Established with the official aim of developing of professionals in the domains of edu-

cation and related areas.

The initiative to support other not-for-profit organisations through multi-year grants was started in 2014, enabling expansion in domains other than education. The grants support for tangible improvements in the lives of the poor and marginalised sections.
